

## 08 May, Friday

Number	Abstract number	<b>Food &amp; Feed Biotechnology</b>
PP-001	Abstract:0023	Test system for direct measurement of lipase activities in milk samples Manuel Krewinkel
PP-002	Abstract:0066	Effects of Exogenous Xylanase and $\beta$ -Glucanase on Carbohydrate Digestibility in Wheat and Barley Rodica Caprita
PP-003	Abstract:0067	The effects of PGPR on the growth and yield of runner bean plants Gabriela Mihalache
PP-004	Abstract:0069	Correlations between the levels of pesticide residues in feed and muscles chickens and food safety Ilie Lucian Ionel
PP-005	Abstract:0070	Prevalence of coccidiostats in products derived from chickens raised in the industrial system with repercussions connected with food safety Savu Ovidiu
PP-006	Abstract:0072	The correlations between the levels of aflatoxin in poultry feed administered to chickens and obtaining quality and safety products Savu Ovidiu
PP-007	Abstract:0077	Production of Fermented Sausages with a Potential Probiotic {Lactobacillus Plantarum} Strain Nikos Chorianopoulos
PP-008	Abstract:0083	Functional foods, probiotics and their role on human health Mihaela Ghidurus
PP-009	Abstract:0095	Insights From The Interaction Of Ferulic Acid With Bovine Xanthine Oxidase Loredana Dumitrascu
PP-010	Abstract:0105	Fluorescence Spectroscopy Investigation on pH and Heat Changes of Cherries Anthocyanin Extracts Mihaela Turturică
PP-011	Abstract:0106	Spectroscopic Assessment Of The Heat Induced Changes Of Xanthine Oxidase Dumitrascu Loredana
PP-012	Abstract:0109	Effect of Thermal Treatment on Phenolic Compounds from Black Rice Carmen Alina Bolea Iancu
PP-013	Abstract:0113	The variation of somatic cell count and of relative and specific viscosity with boiling treatment of cow milk Iuliana Cretescu
PP-014	Abstract:0130	Studies On Interaction Between Polyunsaturated Fatty Acids And $\beta$ -lactoglobulin By Fluorescence Methods Ana Maria Ciuciu Simion
PP-015	Abstract:0131	Exploring Binding Properties Of Retinol Acetate To $\beta$ -Lactoglobulin By Fluorescence Spectroscopy Ana Maria Ciuciu Simion
PP-016	Abstract:0141	Evaluation of Anthocyanins Thermal Degradation in {Prunus spinosa} on Fluorescence Spectroscopy Basis Florentina Mihaela Ursache
PP-017	Abstract:0153	New production technologies. The impact of GMO cultivation on production and trade in cereals and oilseeds of Romania Arghiroiu Georgiana Armenița
PP-018	Abstract:0161	Effects of antioxidants from vegetal material on the quality of meatloaves Gabriel - Danut Mocanu
PP-019	Abstract:0175	Preparation and physicochemical characteristics of nisin-loaded pectin nanoparticles Jolanta Sereikaite

PP-020	Abstract:0177	Sensory quality of Edam cheese prepared from bovin milk using milk clotting enzyme from helianthus annus Amal Kahlouche
PP-021	Abstract:0179	Complexometry and ICP method relevance in calcium and magnezium content measurment of some dairy products Somesan Rodica
PP-022	Abstract:0180	Influence of race and breeding region on the composition of traditional goat cheese manufactured by protease from goats Farida Boumediene
PP-023	Abstract:0182	The action of natural antioxidants on lipids in raw-dried sausages obtained without chemical additives Manea Iuliana
PP-024	Abstract:0187	Assessment of polychlorinated dibenzodioxins (PCDDs)/dibenzofurans (PCDFs) and polychlorinated biphenyls (PCBs) contamination in some meat products from Romania Oana Margarita Ghimpeteanu
PP-025	Abstract:0191	General principles and regulations on obtaining products from genetically modified organisms Magda Gonciarov
PP-026	Abstract:0217	The implications in food safety of radionuclides which may be present in products obtained from chickens reared in industrial system Ilie Lucian Ionel
PP-027	Abstract:0229	Study about the fast food business management Sirbu Constanta Corina
PP-028	Abstract:0231	Detection and quantification of genetically modified soybean in food and feed traded in the romanian market Elena Rosculete
PP-029	Abstract:0233	Functional Evaluation of Mussel Extract Antimicrobial Activity Against Coliforms Using Raw Milk Cheese Mara Georgescu
PP-030	Abstract:0242	Researches regarding the authentication nutrition value of frozen seafood Carmen Daniela Petcu
PP-031	Abstract:0250	Characterization of biofilm structure of bacterial associations formed on surfaces with different levels of roughness Claudia Sala
PP-032	Abstract:0261	Evaluation of Phytate Degrading Abilities of Local Isolates of Lactic Acid Bacteria Andreea Dobre
PP-033	Abstract:0268	Variability of the thermotolerance genomic island present in Cronobacter spp Mária Orišková
PP-034	Abstract:0274	Biomarkers of oxidative stress from vegetable oils and walnuts used to characterize the antioxidant activity of meatloaf Gabriel - Danut Mocanu
PP-035	Abstract:0288	The prevalence of Yersinia species in slaughtered pigs Laurentiu Tudor
PP-036	Abstract:0291	The prevalence of Campylobacter spp. contamination in broiler chicken production sector Laurentiu Tudor
PP-037	Abstract:0299	Enhancement of Protein Content in "(Kluyveromyces marxianus)" Biomass Produced on Cheese Whey Lactose Jekaterina Lukjanenko
PP-038	Abstract:0304	The correlation between water temperature from a trout farm and blood biochemical parameters of fish Elena Mitranescu

PP-039	Abstract:0305	The Evaluation of Welfare in a Dairy Farm in South-eastern Romania
		Elena Mitranescu
PP-040	Abstract:0316	Consumer's Perception Referring To Buying And Consumption Of Ecological Food Products
		Ioana Anda Milin
PP-041	Abstract:0317	Incomes Influence On Ecological Products Consumption
		Andreea Mihaela Radac
PP-042	Abstract:0346	Research on spectroscopic composition of safflower seeds { <i>Carthamus tinctorius</i> L.} grown in the conditions of Southeastern Romania
		Dobrin Aurora
PP-043	Abstract:0350	Achieving a risk analysis for products derived from genetically modified organisms, in terms of food safety
		Magda Gonciarov
PP-044	Abstract:0351	Optimisation Of Growth Condition For " <i>Bacillus licheniformis</i> " And " <i>Bacillus subtilis</i> " By Using Xylooligosaccharides
		Oana Emilia Constantin
PP-045	Abstract:0352	Optimization of Medium Components for Phytase Production from "{ <i>Aspergillus niger</i> }" FM-32
		Sevil Toroğlu
PP-046	Abstract:0353	Physico-chemical, Antioxidant Activity And Sensory Analysis Of New Beverages Based On Milk, Cranberry, Rosehip Fruits And Horseradish
		Daniela Istrati
PP-047	Abstract:0355	Influence Of Unconventional Thermal Treatment On Physico-chemical Characteristics Of Vegetable Juices
		Felicia Dima
PP-048	Abstract:0357	Rheological And Textural Properties Of Different Formulations For Functional Rice Based Biscuits
		Eugenia Pricop
PP-049	Abstract:0361	Efficacy of selected bacterial and yeast strains against aflatoxigenic { <i>Aspergillus flavus</i> }
		Alexandra Oana Ciobotaru
PP-050	Abstract:0372	Antifungal Activity Of Lactic Acid Bacteria strains Against { <i>Aspergillus niger</i> } And { <i>Aspergillus flavus</i> } Isolated From Brined Vegetables
		Adrian Matei
PP-051	Abstract:0382	The impact of biotechnology and GMO cultivation on individual consumption of cereals and food security in Romania
		Denisa Florentina Burcea
PP-052	Abstract:0385	Pretreatment and freezing storage effect on apricots quality attributes
		Stan Andreea
PP-053	Abstract:0387	Optimization of Medium Components for Phytase Production from "{ <i>Aspergillus niger</i> }" {FM-32}"
		Sevil Toroğlu
PP-054	Abstract:0395	Client – Basic Element in the Frame of Public Food Service
		Elena Orodan
PP-055	Abstract:0397	Aspects that Characterize the Structure of Consumption of Agricultural Products, at National Level
		Tabita Hurmuzache
PP-056	Abstract:0401	Nutritional evaluation of { <i>Cucurbita pepo</i> } aerial parts as potential feedstuffs in laying hen diets
		Iulia Varzaru
PP-057	Abstract:0409	Chitosan coatings, a natural and sustainable food preservation method
		Adriana Laura Mihai
PP-058	Abstract:0429	Comparative studies of physical, chemical and biological honey reported at bees development in altered environmental conditions
		Manea Iuliana

PP-059	Abstract:0473	Asparagine and sweeteners – how they influence acrylamide formation in wheat flour biscuits? Gabriel Mustatea
PP-060	Abstract:0478	Food labels - promotion tools in sales Ioan Pet
PP-061	Abstract:0480	Sensory evaluation of some sweet gluten-free bakery products based on rice and buckwheat flour Ioan Minodora Loredana
PP-062	Abstract:0483	Compositional study on wheat flour enriched in bioactive compounds with functional role Livia Apostol
PP-063	Abstract:0504	Convective drying kinetics and quality of pears Velescu Ionut
PP-064	Abstract:0505	Qualitative evaluation of European catfish meat preserved by cold smoking Emanuel Magdici
PP-065	Abstract:0507	Antiproliferative effects of {Lactobacillus casei} ATCC 393 against colon carcinoma Georgios Aindelis
PP-066	Abstract:0508	Effect of Cr Pic supplementation in layers' diet enriched with Omega-3 fatty acids, on productive performances and egg quality traits Cornescu Gabriela Maria
PP-067	Abstract:0512	Assessments about internal and external quality of eggs for consumption from free range and conventional system Lucia Iuliana Nistor (cotfas)
PP-068	Abstract:0525	The effects of grape pomace included in a diet containing protein-rich forages on dairy cows performances Smaranda Toma
Number	Abstract number	<b>Plant Biotechnology</b>
PP-069	Abstract:0029	Potential use of rhizobacteria as biofertilisers for production of organic white clover ({Trifolium repens}) for cattle industry Laradj Zazou Khalida
PP-070	Abstract:0031	Formation of Macronutrients by Microorganisms and their Application in Hydroponic Greenhouse Conditions Fateme Frootan
PP-071	Abstract:0033	The evaluation of the complexity of Colorado Potato Beetle resistance mechanisms in different Solanum somatic hybrids Imola Erdelyi Molnar
PP-072	Abstract:0043	The Behavior of In Vitro Quince Explants on the Acclimatization Process Aurelia Corina Cosac
PP-073	Abstract:0053	Differential gene expression studies and protein profiling during early somatic embryo genesis in Phyllanthus fraternus and Daucus carota Dinesh Kumar
PP-074	Abstract:0101	Principal component analysis (P.C.A.) that determines the food value of tomato fruits grown in greenhouse Cristina Elena Tota
PP-075	Abstract:0108	Possibilities of propagation through cuttings on some "Hibiscus rosa sinensis" varieties Ana Maria Dellin
PP-076	Abstract:0122	Evolution of BT maize and HT soybean production and cost of coexistence in Romania Silviu Beciu
PP-077	Abstract:0126	The variability evaluation for wild peony collected from South-Western Romania Ilinca Imbrea

PP-078	Abstract:0139	Studies on the use of RAPD markers in the evaluation of <i>Fritillaria meleagris</i> L. genetic variability Madosa Emilian
PP-079	Abstract:0144	Chitosan Improves Plant Regeneration in Callus Culture of a Medicinal Herb { <i>Melissa officinalis</i> } L Yasemin Coskun
PP-080	Abstract:0145	{In vitro} Culture Response of { <i>Phalaenopsis</i> } Orchid by Different Carbon Sources Ragbet Ezgi Duran
PP-081	Abstract:0162	Studies on the Quality of Wheat and Maize Samples Used in the Food Industry in Romania Ileana Cornelia Paunescu
PP-082	Abstract:0169	Researches on the reaction of sunflower hybrids to fungal rots attack Elena Stefania Mardare
PP-083	Abstract:0171	Effectiveness of treatments applied in fighting { <i>Pseudomonas savastanoi</i> pv. <i>Glycinea</i> } pathogen, in terms of 2014, location Unirea, Braila County Alexandru Gheorghe Balasu
PP-084	Abstract:0173	Phytosanitary status for barley varieties in SCDA, Teleorman County Marian Pana
PP-085	Abstract:0176	Production of chimeric virus-like particles bearing M2e influenza epitope in <i>Nicotiana benthamiana</i> plants Gergana Zahmanova
PP-086	Abstract:0183	Genetic diversity of fig ( <i>Ficus carica</i> L.) varieties by RAPD markers Giancarla Velicevici
PP-087	Abstract:0184	Effect Of Low Frequency Electromagnetic Radiation On Early Growth Of Sunflower Plants Daniel Dorin Dicu
PP-088	Abstract:0201	Somaclonal variation revealed by ISSR markers of dicot (Caryophyllaceae) and monocot (Iridaceae) Petolescu Cerasela
PP-089	Abstract:0215	The influence of <i>Ailanthus altissima</i> (P. Mill.) secondary metabolites on biodiversity in natural ecosystems Corina Mihoc
PP-090	Abstract:0228	Zmpti1c overexpression correlates with increased adaptability of maize in low irrigation conditions Raphael Sandaltzopoulos
PP-091	Abstract:0230	Evaluation of the cytological effects induced by the fungicide Maxim in "Zea mays everta Sturt" genotype Elena Bonciu
PP-092	Abstract:0271	Genetic diversity of wild populations of { <i>Apium nodiflorum</i> } Carla Guijarro Real
PP-093	Abstract:0292	Research regarding the potential of production and quality of the durum wheat varieties in terms of SCDA Lovrin Georgiana Olteanu
PP-094	Abstract:0307	Comparison of the fatty acid composition of the seven Orchid species Sinan İşler
PP-095	Abstract:0311	The biocontrol of { <i>Fusarium</i> spp.} with local isolates of { <i>Bacillus</i> spp.} strains Grosu Iulian Alexandru
PP-096	Abstract:0313	Molecular polymorphism in { <i>Puccinia triticina</i> } populations isolated from Romania between 2011 and 2014 Laura Dorina Dinu
PP-097	Abstract:0321	Biological control of invasive species "Metcalfa pruinosa" Say (Insecta:Hemiptera:Flatidae) in ornamentals plants by using coccinelids Ioana Grozea

PP-098	Abstract:0375	Aspects regarding calla lily behavior ( <i>Zantedeschia</i> cv. "Cameo") in different culture systems Ioana Cristina Arhip (insuratelu)
PP-099	Abstract:0386	Population polymorphism ( <i>Cistanche deserticola</i> ) of Kazakhstan in connection with the development of biotechnological methods of raw material processing Kanat Sarsenbayev
PP-100	Abstract:0400	Micropropagation of planting material of poplar ( <i>Populus</i> ) to establishing fast-growing forest plantations Almagul Kakimzhanova
PP-101	Abstract:0415	{Assessment of <i>Drechslera tritici</i> – <i>repentis</i> (Died.) Shoemaker attack on winter wheat in different soil and climate conditions in Romania"} Mirela Paraschivu
PP-102	Abstract:0425	Influence of plant growth regulator upon in vitro propagation of <i>Paulownia</i> sp Marcel Danci
PP-103	Abstract:0440	Capsid Protein Of Potato Virus S Can Suppress Systemic RNA-silencing Oxana Karpova
PP-104	Abstract:0447	First report of potato spindle tuber viroid (PSTVd) in Kazakhstan Leila Nadirova
PP-105	Abstract:0459	Biostimulators Impact Analysis on the Quality and Quantity of Agricultural Products Valentina Tudor
PP-106	Abstract:0492	Studies regarding the influence of growth regulators upon anthocyanins production and callus induction in <i>Vaccinium myrtillus</i> and <i>Momordica charantia</i> Alina Simina
PP-107	Abstract:0496	Distribution of <i>Alternaria</i> sp. on <i>Brassica napus</i> seeds from growing fields affected by alternaria black spot in Calarasi County Lavinia Mariana Berca
PP-108	Abstract:0526	White Clover Cell Culture Tolerance to Copper Ions Irina Kiseleva
PP-109	Abstract:0527	The effects of salicylic acid pretreatment on the antioxidant enzymatic system of chickpea seedlings under salt stress Marin Soare
